

KWS BONO

Hybrid Fall Rye

Hybrid Yield Leader

KWS Bono brings market leading yields to your cereal rotation. This short hybrid has very good lodging resistance making that early harvest a breeze. Since introduced in 2016, KWS Bono has been praised for consistently high yields & good quality grain production.

Adaptability

KWS Bono hybrid fall rye is well suited to all the regions in Canada.

Highlights

- Market-leading yields; up to 136%* of Hazlet
- Very good lodging resistance
- Short stature, easy to harvest
- Good quality for all markets
- Contains the KWS Pollen Plus® characteristics
