AAC HOCKLEY

CWRS

Next Generation Genetics

AAC Hockley, the next generation in genetic potential offering high grain yields and improved protein. This semi-dwarf variety has market leading standability, significantly better than all checks and can stand up to an intensive fertilizer management plan. The disease package is excellent, with MR or better for all priority 1 disease including FHB. AAC Hockley is a top-tier wheat built for Western Canadian growers.

Highlights

- High yielding, 109%* of checks
- Market leading standability
- Short semi-dwarf
- MR or better for all priority 1 diseases
- Improved protein

HOCKLEY, L. J. "Jack"

[Read Jack Hockley's full bio at sasklegion.ca](http://sasklegion.ca)

Jack was born in Yellow Grass area in 1926. He joined the Canadian Army during World War II, served with Pacific Command and was honourably discharged in Regina in April 1946. Jack has been a member of Maple Creek Legion Branch 75 for thirty years.

WWII

FP Genetics is proud to partner with The Royal Canadian Legion, Saskatchewan Command and the work they do serving Veterans and their families. For that reason, many of our certified seed varieties bear the names of Veterans in honour of their service to our country.
