KWS TREBIANO

Hybrid Fall Rye

Big Hybrid Yields & the Best Ergot Resistance Available

KWS Trebiano contains the KWS PollenPlus® characteristics, leading to higher pollen shedding and reduced ergot. Chosen for its market-leading reduction in ergot and exceptionally high yields, this hybrid produces high quality product for the grain market.

Adaptability

KWS Trebiano hybrid fall rye is well suited to all the regions in Canada.

Highlights

- Top-in-class ergot resistance
- Contains the KWS PollenPlus® characteristics
- High yields, 127%* of Hazlet
- Short straw, top-in-class standability
- Best in grain quality
 - » low ergot, high falling number, high digestability
